📍Oran, Algeria

Professional Summary

I'm a passionate frontend developer with 3+ years of hands-on experience building clean, responsive, and accessible web interfaces. I specialize in React, Next.js, and modern web technologies. I enjoy bringing ideas to life, whether it's creating elegant UI components or collaborating with teams to ship polished products.

Work Experience

Frontend Developer

LabLabee – Oran, Algeria — *AUG 2023 – CURRENT*

EdTech e-learning provider and virtual hands-on training platform focused on future networks.

Tech Stack: React.js, MUI, Webflow, Git, REST APIs.

Key Responsibilities & Achievements:

- Developed and maintained new features using React.js and Material UI, ensuring responsive and accessible design across devices.
- Collaborated with product and design teams to build interactive dashboards and learning interfaces tailored for technical users.
- Led front-end development of the official marketing website using Webflow, enhancing brand presence and improving SEO.
- Contributed to reusable component libraries and improved UI consistency across the platform.
- Participated in code reviews, agile sprints and delivering features on time and aligned with business goals.

Frontend Developer

WeOneIT – Algiers, Algeria — *JAN 2022 – AUG 2023*

Tech Stack: React.js, Next.js, TailwindCSS.

Key Responsibilities & Achievements:

- Developed and implemented visually appealing and user-friendly web interfaces using different technologies.
- Proficient in technical SEO techniques, ensuring optimal website performance and search engine visibility.
- Collaborated effectively with cross-functional teams to deliver high-quality projects and meet client requirements.
- Participation in the drafting of technical documentation.

Frontend Developer

KSM-IT Consulting – Amiens, France — *APR 2022 – AUG 2023*

Tech Stack: React.js, Next.js, Angular.js, TailwindCSS, Bootstrap.

Key Responsibilities & Achievements:

- Contributing as a part-time remote frontend developer on high-level projects, showcasing the ability to handle complex requirements and deliver exceptional results.
- Demonstrating strong problem-solving skills to troubleshoot and resolve frontend issues and optimize website performance.

FORMATION

PHD Student

ESI SBA – Sidi Bel Abbès, Algeria — *2022 – CURRENT*

PhD student and researcher at the Higher School of Computer Science, 8 Mai 1945. My area of expertise lies in Information and Decision Making Support Systems. As a dedicated scholar, I am deeply engaged in studying and exploring advanced techniques and methodologies to enhance information systems.

Master 2 in computer science

ESI SBA – Sidi Bel Abbès, Algeria — *SEPT 2016 – SEPT 2021*

Master's degree in Information Systems and Web from the Higher School of Computer Science, 8 Mai 1945. This comprehensive program provided me with a strong foundation in understanding and designing effective information systems for the web environment.

Computer Science Engineer

ESI SBA – Sidi Bel Abbès, Algeria — *SEPT 2016 – SEPT 2021*

I pursued a specialized education in Information Systems and Web Engineering at the Higher School of Computer Science, 8 Mai 1945. This program offered a comprehensive curriculum that encompassed various facets of information systems and web technologies.
